

Warsaw Seems Save From Reds; Poles Once In Possession Of Key To Cantata's Defence

Pluski's Armies no Longer Obligated to Fight Defensive Battle And Offensive on Their Wings Has Reached The First Objectives—Poles Appear to Be Pausing Before Attempting to Develop Their Success—Reds Driven Back For Distances Varying From 25 to 50 Miles

PARIS, Aug. 18.—Warsaw now seems to be saved from the Bolsheviks, President Pilsudski's armies no longer are obliged to fight a defensive battle and the offensive on their both wings has reached the first objectives and the Poles appear to be pausing before attempting to develop their success.

The offensive on the left wing is being personally led by the French generals, Billot and Blyard, and already has yielded important results. It has once more put the Poles in possession of the key to Warsaw defenses—the fork between the Narew and Bug rivers—while the forces advancing toward Mlawa, which have reached Talsienhof, 12 miles to the south of Mlawa, will force the Bolsheviks marching toward Plock and Thorn to beat a hasty retreat and consequently re-occupy the road line to Danzig.

But the maneuver on the right wing, along the line of Garolin and Partstoch, between the Vistula and the Bug, is the more interesting of the two from the strategic viewpoint, because it threatens the communications of the main Bolshevik forces. Swelled by troops freed by shortening of the front in the Brody region, the movement already has been rapid and headway was made in the last 24 hours, the line toward Brest-Litovsk for distances varying from 25 to 50 miles.

MOSCOW, Aug. 18.—Bolshevik Russia's position on both the Polish and South Russian fronts is being generally satisfactory, by Leon Trotsky, Bolshevik war minister, in an address here tonight. This speech was made in a meeting of the Soviet government.

Discussing the military situation, Trotsky declared that on the front against White Poland, our tired troops were making progress. He said that the holding up of our troops was due to the fact that the Poles were not ready to fight. He said that the Poles were not ready to fight because they were not ready to fight with the Poles.

"The peace negotiations at Minsk," he said, "are being conducted in a friendly spirit. The Poles are developing on the unstable foundation of the peace negotiations. The Poles are developing on the unstable foundation of the peace negotiations. The Poles are developing on the unstable foundation of the peace negotiations."

He said that the Poles were not ready to fight because they were not ready to fight with the Poles. He said that the Poles were not ready to fight because they were not ready to fight with the Poles. Welcome Home Camp In the Rockies Proves Big Success

A. O. Wheeler, director of the Alpine Club of Canada, passed through the city en route to Jasper, in which vicinity he is conducting surveys of the international boundary.

In conversation with a reporter he stated that the Welcome Home Camp in the Rockies, which was opened last week, had been a great success, notwithstanding the difficulties created by the long journey and the high passes. More than 100 persons had been transported to the great camp and the mountain scenery of it had been taken for distribution throughout the country.

Three motion picture outfits had been sent to the camp, and the climbing had been made. There had been no accident, and the greatest thing ever done by the Alpine Club will prove a great advertisement for the Canadian Rockies.

Three Days of Travel

Three days of travel to the mountain and its wonderful Alpine scenery, surrounded by a difficult trail for the transport of the equipment, was made possible through the service of the Walking Tour Camp, organized by Mr. Wheeler, for the summer of 1920.

Two intermediate camps—Sunshine Camp and Golden Valley Camp—were passed by the Alpine people, who had been expected to reach the main camp by the end of the week.

More than 100 persons had been transported to the great camp, and the mountain scenery of it had been taken for distribution throughout the country.

Some Handicaps

The late lying snow on the passes being down in two weeks earlier than it had been in previous years, has been a great handicap to the recently made minor hikes in the Rockies. The snow had been so deep that it was not possible to make the same as in a wet organized city.

City Commissioners Will Hold Court to Inquire Into Objections Against Assessors' Valuations

Appeals against business assessments for 1921 will be heard by the city commissioners on Tuesday, August 24th at 10 a.m.

Mr. and Mrs. Wm. Swarbrick have been entertaining their daughter Mrs. Murray and children. Mr. Murray left his life at the front serving as an aviator, and had done some efficient work in the army.

Monday, August 16.

LOUGHLEIGH

Robert McAllister of Myra Creek farm, commenced his appeal against the valuation of his farm for 1921. The variety of what is the Ruby, originated in the Myra Creek farm, and is now being sold in the city.

Mrs. A. Brown and family are now camping at Harriet. Many other Loughleigh residents have also been enjoying a cooling dip over the week end.

Groveland school has been praised for the interior renovation. It looks attractive in its new garb.

Mrs. McAllister has another lot of hay on hand, which will be ready to cut on the 17th of August. That year's hay matured in 107 days on summer-flooded land. In spite of the late spring in 1919, the hay demonstrates its superior value as an early maturing hay.

On July 22nd, Mr. J. Saunders visited Myra Creek farm, and expressed his pleasure at the growth and promise of the Ruby wheat at that time on a farm in a latitude commonly considered too northern for growing and maturing spring wheat—Edmonton, Aug. 16th.

LOUGHLEIGH

Grain cutting was started here this week in many different locations and the weather was very good. The week's work was harvested August 10th and 11th. The weather was very good for growing and maturing spring wheat—Edmonton, Aug. 16th.

Large consignments of wheat, cut and other farm machinery have been received recently by W. H. H. and family. The wheat is being stored in the large silos of the farm. The machinery is being used for the harvesting of the wheat.

J. Morrison has purchased the 2nd lot of the farm, which is being sold by the estate of the late J. H. H. The lot is 121 1/2 acres with the crop.

Hair Often Ruined By Careless Washing

If you want to keep your hair looking its best be careful what you wash with. With just one wash of your hair with anything that contains too much alkali. This dirt and alkali makes the hair brittle, and ruins it. The best thing for steady use is just ordinary milled coconut oil. It is pure and gentle and does no harm to anything else you can use.

One of two testimonials will clean and keep healthy. It will help maintain the hair with water and soap. It makes an excellent hair cream, creamy lather, which rinses out easily, removing dirt and dandruff. The hair dries quickly and easily, and it leaves the scalp soft and the hair fine and silky, bright, lustreous and easy to manage.

You can get milled coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Bolsheviks Advanced Into Poland Without Any Regard To Their Lines of Communications

Have Lost All Touch With Their Bases of Operations, and a Vigorous Effort on the Part of the Poles Would Inflict a Decisive Defeat, Says a Warsaw Newspaper.

Warsaw, Aug. 17.—(Polish)—Bolshevik forces advancing into Poland without any regard to their lines of communication, according to statements of refugees gathered by the Warsaw Government.

They have thus cut all touch with the lines of communication, and state they had not the slightest doubt of leaving their villages, for there was nothing behind the rear lines that they could rely upon. It was possible to travel many miles without seeing a single Polish soldier.

The effect on the part of the Poles would be sufficient to inflict a decisive defeat upon the Bolshevik army, the newspaper declares.

It is only by a vigorous effort on the part of the Poles to cut off the Bolshevik lines of communication, and to destroy the lines of communication, that the success of the Bolshevik advance can be prevented, according to the newspaper.

Regina, Aug. 18.—(Canadian Press)—The English farm journalist, who has been in Manitoba for some time, is much impressed with the dearth of live stock on the farms.

Could Not Sleep

Mr. Earnest Clark, Police Officer, 333 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 60 cents a box, 12 boxes \$6.00. Sold by all druggists and health food stores. C. H. Lee, Toronto.

District Surrounding Banff Has Many Fires, But Many Miles From Town

Calgary, Aug. 18.—Though a thick pillar of smoke overhung the city all day on Tuesday, and the pungent smell of burning timber penetrated the houses of Calgary to such an extent that many citizens thought forest fires were almost upon the city, there has been no report of any serious fire within the Alberta borders as yet, according to G. HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body.

The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is fully entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

COUNTY JAIL AT SANDWICH IS OVERCROWDED

Windsor, Ont., Aug. 18.—There are 87 prisoners now held in the county jail at Sandwich, approximately 100 over the normal capacity.

Most of them are O.T.A. violators. Cots and hammocks have been placed wherever room can be found for them, but even with this makeshift, some of the inmates are without accommodation.

Two beds are under consideration by Governor Winant as a solution, and if this is found impracticable, the prisoners may have to sleep in relay of six hours each.

The various cups, blends and medals offered for competition have been throughout the week exhibited in the various stores and this week Edmonton people will have an opportunity of seeing them in the windows of the Hudson's Bay Co.

Preparations have been made for the comfort and convenience of the large crowd of visitors. The roads are

WELFARE BOARD MAY CLOSE DOWN AT END OF YEAR

Shortage of Money Brings Worry to Those in Charge of Work

Whether the Edmonton Board of Public Welfare will carry on under its present constitution, or whether a department of the city will have to be instituted to perform the work of alleviating distress now undertaken by the board, is a question which will soon have to be decided.

The board has now been in operation about six years and during that time many persons in needy circumstances have been benefited by its ministrations. Primarily, its founders were the Board of Trade and business men of the city and as far as funds are concerned, the committee of the city council to make a grant of one dollar for every dollar collected by the board.

Private support, however, has not been very free of late and this year, on the matter being placed before council by Ald. Ferguson, it was decided to increase the council aid to two dollars to one collected by the board. Even this is not proving sufficient and it now becomes evident that unless private subscriptions are more generous, and the collection of funds is taken up more strenuously, the whole program will fall back upon the city council.

This has already been touched upon, but it is hardly likely that any changes would be made until the end of the present year. There are some who have a determination to see the kind administered on a purely official manner by a department.

Miss King, the present secretary of the board, has now been in office for some two years and is regarded as an extremely efficient official by the members of the executive. In addition she holds the post of city lampoon under the "Edmonton Allusionist."

City Pays Half.
Under the net the city has to pay half the amount of the board's work and also carry out the investigation and administration work in the city and this has always been done by the Welfare Board. Welfare houses to the board this work would have to be carried on. At present the board has between 70 and 80 mothers receiving allowances, and the amount paid out monthly totals somewhere in the neighborhood of \$2,000.

Financial Aid Needed.
At the August meeting of the Edmonton Board of Public Welfare the future of the board was discussed. It was decided that if the board is to continue, it must have financial aid from the city.

The chairman, Mr. J. J. Colman, reminded the board that the organization formed in 1914 with the object of meeting the need of organized relief on an adequate scale, together with the prevention of pauperism, and assistance, was started mainly at the instigation of the business men of the Board of Trade and with the hearty endorsement of the business men of the city. It had carried on this work to the best of its ability for nearly six years, replacing the old relief committee from the city and the volunteer societies. In return for the service rendered by the board, the city had made it a grant each year from the civic fund equal to the total amount of subscriptions from private sources. This year the amount of the grant from the city had been increased in rate of 12 for every \$1 obtained by subscription. But the latter had fallen off to such an extent that the increase did not make up the deficit for money, and at the present time the board is in a position to be entirely financed by the city council.

Such a condition of affairs would be expected to continue, and the wish of the board, as expressed at the last meeting, he had suggested to the council of the Board of Trade, pointing out that the Welfare Board was a public body and that it was not the intention of the board to be a part of the city's financial burden. The board of trade in such an appeal and the hope of the board that the response from the citizens of Edmonton was due either to indifference on the part of the board, or to dissatisfaction with the present methods of financing the work of the board.

As a result of the discussion which followed, Mr. J. W. Henson stated that, while it was understood that the Welfare Board would carry on as at present until December 31, the board was in agreement with the assurance given to Mayor Clarke at the last meeting, he wanted

AUTO CLUB WOULD FIX SIGNBOARD ON MAIN ROADS

Ask Consent of City Officials for a Scheme to Direct Travellers

A scheme to be placed propounded by the Edmonton Auto Club which should be especially acceptable to motorists and the city council.

The idea is to place notice boards on the main roads in the city, showing direction and also stating to place led to by the road. The matter has been placed before the city commissioners and requested with considerable favor by them. Commissioner Hindlow will go into details with the Auto Club.

Delicate application was made for permission to place a board at the corner of 124th Street and 103rd Avenue. This will state that the road leads to Wainwright, Spruce Grove, Stony Plain, Wabamun, Hobb and Fort Assiniboine.

It will be painted and not unattractive of design and large enough for lettering to be easily read. Eventually, if the city officials are agreeable, similar boards will be erected in other parts of the city.
